

Paper cutting machine mod. SGT 40

The automatic machine mod. SGT 40 cuts the paper and fibre wound on a 500mm diameter reel. It is able to cut pieces up to a maximum length of 850 mm and to create compact stacks of the cut product. Up to 20 sizes can be saved, which can be edited at any time; other sizes can be created on a case-to-case basis as an alternative to the twenty stored. The SGT 40 paper cutting machine can also be programmed to cut in order for different quantities and sizes.

Tensione	400 V trifase
Potenza installata	0,37 Kw
Frequenza	50 Hz
Pressione aria	6 bar
Peso	180 Kg
Grammatura min. carta	100 gr/m ²
Grammatura max carta	300 gr/m ²
Larghezza min foglio	200 mm
Larghezza max. foglio	400 mm
Lunghezza min foglio	150 mm
Lunghezza max foglio	850 mm
